4. PARENT NETWORK | Amy Minzghor/Laura Wallis

- Laura provided information on the Blue Cross Healthy Minds Partnership Roadmap Program. This program provides mentoring for schools to implement on site providers for mental health services. The schools would dedicate a space at the school and mental health services would be provided. Student's medical records would not be accessible by the school. Providers would bill for their services separately. This program would increase access to mental health care. Ms. Wallis has been talking with members of the District 93 School Board to provide information on the program. Schools in the Boise area are participating in the program. Additional information and the grant application can be found at www.bcidahofoundation.org. Ms. Ness-Parker asked members of the committee to review the information on line and come prepared to discuss it at the next meeting. After discussion, it was decided that support from the schools would be needed prior to trying to get providers on board.
- The Parent Network is still looking for parent representation from regions 1, 2, 5, and 6.
- The 3rd Annual Parent Network Workshop will be held in Boise on October 17-19, 2019.
