Training Follow-Up Conversation

Teriann Ness-Parker

- Post-Training Follow Up
  - Thoughts from Meeting Attendees about the Event
    - The venue was great
    - Heard positive feedback about the event
    - Noticed that those that were there in person had a better experience than those online due to distractions
    - Date was a bust time frame, maybe look at a different month?
      - Can we look at regional and state events and see what is already going on?
      - Look into partnering events with other events/conferences dependent upon if it aligns with the needs of the training
  - Recordings, how do schools access these?
    - Have individuals reach out to Matt and/or John and they can get on a list to access the recording
    - Figuring our fees and royalties
  - Shane still has books, reach out to him if you know of someone who needs some
- Surveys and Evaluations
  - DriftNet is going to send out a survey based off of feedback from what the group wants to know
- Ahead of the Curve Summit 2025
  - 2 Day Training Next Year?

- Prioritize demographics of day events (school admin level, teacher level, law enforcement)
  - Do you open this up to parents?
- Keynote speakers and breakout sessions and interactive workshops
  - Would this then need to be a in-person only event then, or would breakout sessions be able to be broadcasted?
- Thoughts on adding additional sessions/speakers to the training
- Session with restorative justice practices
- Drug Impairment Training for Educational Professionals
- Verbal escalation tactics
- Bring in new speakers such as Molly who Dr. Langman talked about
  - Would the state department of education then sponsor this?
- Do we want to keep having monthly meetings?
  - DriftNet will host meetings from here on out for the Ahead of the Curve 2025 Summit planning
- Who needs to be contacted to get schools more involved in this training (attendance wise)

The CMH Subcommittee's role is to ensure that the mission of the RBHB addresses the unique needs of the community for those under the age of 21 by providing awareness and support, addressing gaps and needs, making recommendations, and researching and developing ways to help and educate the community, children, youth, adolescents, and their families to the distinctive needs of the CMH population. These responsibilities are not limited to behavioral health concerns but also include education on the vast array of other factors that affect the lives of children and their families and involve partnering with the community to identify the gaps and needs within those respective communities.
