TEMPORARY / INTERMITTENT EVENT FOOD LICENSE INFORMATION

Section 2-102.12, requires each food establishment to have a minimum of one (1) certified food protection manager (CFPM). **For temporary food establishments, we will accept a copy of your CFPM certificate issued by a nationally recognized organization or a copy of the certificate gained from passing the State of Idaho's Temporary Food Vendor Exam.** There is no cost for the state exam and it is available online through our website.

Applications without a training certificate and license fee will not be accepted.

In addition, a food license fee (as explained on the front cover of this packet) is required for all temporary/intermittent food establishments. This includes any moveable push carts, vending trucks, trailers, tents, booths, bicycles, water craft, or other movable units and fixed facilities used for temporary/intermittent events. Idaho Code §39-1604 states, "No person, firm or corporation shall operate a food establishment, for which no other state or federal food safety inspection or license is required, without a license approved by the director of the department of health and welfare or his designee." An Intermittent food service establishment is one that operates at a single, specified location in conjunction with a recurring event. Examples of recurring event may be a farmers' or community market or a holiday market.

In 2019, the Idaho State Legislature amended Section 39-1607 dealing with food establishment licenses and fees. Temporary food establishments will now pay a fee based on how long they will operate. The fee structure is three (3) tiered: those operating for one (1) day; those operating for two (2) or three (3) days; and those operating for four (4) or more days or at multiple events (if the same menu and operation is utilized). A new application and fee are required for a different menu or operation. The first page of this packet lists the fee structure for the calendar year.

If operating under a multiple event license in another Health District, that district will require the vendor to show proof that the fee has been paid for that calendar year and is serving the same menu. Proof of a local commissary (if utilized) may also be required. If this information cannot be provided, a new application, copy of your training certificate, and fee will be required. Please contact the local Health District office prior to operating in that Health District.

Once the application has been approved, a letter will be sent to the applicant stating that they are approved to set up operations at their first scheduled event. An inspection will occur at the beginning of that event and a license issued if the conditions of the permit are met. If the applicant cannot meet the food code requirements, he/she will be required to cease operations and the license will not be issued. Once the food license is issued, it must be on public display at each event. A temporary or intermittent food establishment may not be inspected at each event, but the Health District may inspect at any time the establishment is operating.

Please complete all questions on the application, attach a complete menu, a letter from your commissary, (which includes the commissary's name and license number, address, telephone number) - signed and dated by the owner, and submit with a copy of your training certificate and the appropriate license fee.

*Applications, along with proof of certified training, must be submitted for review **no less than 2 weeks** prior to the event. An incomplete application may cause a delay and/or disapproval of your application.*

Applications received after the deadline will not be accepted and the applicant will not be allowed to operate.

If you have any questions, please feel free to contact 208-523-5382. Thank you.

Notes shared to Applicant: _____

1. Please list or attach a complete menu of food items to be served. (Only limited menus with minimal food prep will be approved. Serving multiple meals, i.e. breakfast, lunch, and dinner, may require multiple licenses.)

2. List where all food items and ice will be purchased (name of supplier). Where will you be getting your water for food prep, handwashing, and dishwashing? All foods, water and ice must be purchased or obtained from an approved source.

3. Describe how all foods on your menu will be transported, stored, prepared and served. (All food prep must be done on site at the event(s), unless a commissary is used. Food prep is not to be done in your home kitchen.)

NOTE: Only menus with minimal food prep will be approved for a temporary license, **unless** a commissary is used. A commissary (a licensed, approved food establishment) may be needed for storage of food and extensive food preparation, including washing of raw produce.

If a commissary is used, written approval from your commissary with the commissary name, license number, address and telephone number must be signed by the owner/manager of the commissary and attached to this application. A Shared Food Facility/Commissary Agreement is provided as the last page of this application packet.

4. List all equipment and describe the set-up that you will be using at the temporary/intermittent event. (How will food be kept hot/cold? What type of food prep are you doing and how? etc.)

- All temporary/intermittent food establishments must have adequate cooking, holding, and refrigeration facilities to hold foods below 41°F or above 135°F. Mechanical refrigeration units must be pre-chilled to 41°F or less prior to being filled with food.
- Food grade hoses are required for filling potable water tanks. Do not forget to clean and sanitize tanks prior to use.
- Every temporary/intermittent unit must be constructed in a manner that protects the food from outside elements such as wind, rain, dust, etc.
- Single service articles shall be provided for use by the customers.
- Ready to eat foods must be handled with gloves and/or proper utensils.

5. **Include a sketch of the temporary/intermittent food establishment that shows placement of equipment, sinks (handwashing and dishwashing), water tanks, refrigeration, counter tops and work areas.**

6. How do you plan to wash your hands? Describe the equipment.

Every temporary/intermittent food establishment must have a hand washing facility. This must include a hand washing vessel (101°F), soap, paper towels and a catch basin or retention tank. The vessel must have a spigot that can be turned on and stay on for washing hands. No push button types allowed.

7. How will you dispose of your waste water and garbage?

All waste water and garbage must be disposed of at an approved site.

8. How do you plan to wash and sanitize equipment and utensils?

PLEASE NOTE: Incomplete applications will delay review or result in the application not being approved. Do not reference information provided on previous applications you made with Eastern Idaho Public Health. Thank you.

I have read and understand the above requirements and agree to comply with these requirements for my temporary/intermittent event food establishment.
