10:55 AM 4. Public Comment

Ashley Stallings

- Suicide Prevention efforts: Community Suicide Prevention focusing on postvention. Dr Matt Larsen did a study that identified higher risk for adult white males who smoke, have high stress in a romantic relationship, recent relationship change, little to no warning signs recognized. Looking into changing wall @ Jefferson County Lake to reflect 988 for Suicide Prevention instead of the previous crisis phone number. Care card created and disseminated to schools in each county to assist staff with how to direct those affected to helpful resources.
- Have updates to Suicide Prevention & PFS each quarter to update on efforts made.
